ZF3000 EXTERNAL BLIND

DIMENSIONING - CORD LEADING

INSTALLATION IN THE WINDOW RECESS

Sz - blind width (slat width)
So - hole width
Wz - blind height
Wo - hole height
Sz = So - installation clearance (1 cm per side)
Wz = Wo

INSTALLATION ON THE FACADE/FLUSH-MOUNTED

Sz - blind width (slat width)
So - hole width
Wz - blind height
Wo - hole height
Wp - package height
Wbo - height of the safety plate
Wz = Wo + Wp* or **Wbo**

INSTALLATION ON THE FACADE:

Sz = So + slat overlap on the facade

FLUSH-MOUNTED:

Sz = window width**

NOTE

IN THE CASE OF INSTALLATION IN THE WINDOW RECESS, MAKE SURE THE RECESS WIDTH AND HEIGHT ARE EQUAL IN ALL POINTS. IF THEY ARE DIFFERENT, ASSUME THE DIMENSION OF THE MINIMUM OR MAKE A PROPER CORRECTION OF THE HOLE.

IF SEVERAL EXTERNAL BLIND SETS ARE ORDERED, THE FOLLOWING RULE OF FILLING IN ORDERS SHALL BE OBSERVED: FIRST FILL IN THE INFORMATION ON LEFT SIDE BLINDS AND THEN IN ORDER FROM LEFT TO RIGHT WHEN LOOKING FROM INSIDE THE ROOM.

* - When adding the package height and subsequent adding a higher safety plate - the plate may enter the frame opening/hole.

** - It is recommended to take into account the installation clearance for free operation of the blind.

ZF3000 EXTERNAL BLIND

DIMENSIONING - ALUMINIUM GUIDES

INSTALLATION IN THE WINDOW RECESS

Sz - blind width
So - hole width
Wz - blind height
Wo - hole height
Sz = So
Wz = Wo

INSTALLATION ON THE FACADE/FLUSH-MOUNTED

Sz - blind width
So - hole width
Wz - blind height
Wo - hole height
Wp - package height
P - guide width (20 mm)
Wbo - height of the safety plate
Wz = Wo + Wp* or **Wbo**
INSTALLATION ON THE FACADE:
Sz = So + 2 x P
FLUSH-MOUNTED:
Sz = window width**

NOTE

IN THE CASE OF INSTALLATION IN THE WINDOW RECESS, MAKE SURE THE RECESS WIDTH AND HEIGHT ARE EQUAL IN ALL POINTS. IF THEY ARE DIFFERENT, ASSUME THE DIMENSION OF THE MINIMUM OR MAKE A PROPER CORRECTION OF THE HOLE. IF SEVERAL EXTERNAL BLIND SETS ARE ORDERED, THE FOLLOWING RULE OF FILLING IN ORDERS SHALL BE OBSERVED: FIRST FILL IN THE INFORMATION ON LEFT SIDE BLINDS AND THEN IN ORDER FROM LEFT TO RIGHT WHEN LOOKING FROM INSIDE THE ROOM.

* - When adding the package height and subsequent adding a higher safety plate - the plate may enter the frame opening/hole.

** - It is recommended to take into account the installation clearance for free processing of wood elements.

ZF3000-BX, TP1000K-ZF EXTERNAL BLIND

DIMENSIONING - ALUMINIUM GUIDES FOR FLUSH-MOUNTED INSTALLATION

INSTALLATION IN THE WINDOW RECESS (ZF3000-BX)

Sz - blind width
So - hole width
Wz - blind height
Wo - height of the hole together with the box height
Sz = So*
Wz = Wo

INSTALLATION ON THE FACADE/FLUSH-MOUNTED (ZF3000-BX) INSTALLED TO WINDOW FRAMES (TP1000K-ZF)

Sz - blind width
So - hole width
Wz - blind height
Ws - box height
Ws/p - height of the box (+ can be optionally elevated by 30 mm in TP1000K-ZF)
Wo - hole height
Wk - height of the window
P - guide width (27 mm)

Wz = Wo + Ws
Wz = Wk + Ws/p**

Installation on the facade:

Sz = So + 2 x P

Flush-mounted installation:

Sz = window width*

Installed to the window frame:

Sz = window width*

NOTE

IN THE CASE OF INSTALLATION IN THE WINDOW RECESS, MAKE SURE THE RECESS WIDTH AND HEIGHT ARE EQUAL IN ALL POINTS. IF THEY ARE DIFFERENT, ASSUME THE DIMENSION OF THE MINIMUM OR MAKE A PROPER CORRECTION OF THE HOLE. IF SEVERAL EXTERNAL BLIND SETS ARE ORDERED, THE FOLLOWING RULE OF FILLING IN ORDERS SHALL BE OBSERVED: FIRST FILL IN THE INFORMATION ON LEFT SIDE BLINDS AND THEN IN ORDER FROM LEFT TO RIGHT WHEN LOOKING FROM INSIDE THE ROOM.

* - It is recommended to take into account the installation clearance for free processing of wood elements.

** - Refers to the TP1000K-ZF box (if the TP1000K-ZF box is lowered, the total height of the product does not increase).

ZF3000-BX EXTERNAL BLIND

DIMENSIONING - CORNER VERSION WITH A CORNER GUIDE/ A LEADING CORD

INSTALLATION ON THE FACADE/FLUSH-MOUNTED

INSTALLATION OF THE VERSION WITH A LEADING CORD*

INSTALLATION OF THE VERSION WITH A CORNER GUIDE

Sz - blind width

So - hole width/window frame with a connector
(do not measure that part of the connector
that protrudes from the window frame)

Wz - blind height

Ws - box height

Wo - hole height

P - guide width (27 mm)

Wz = Wo + Ws (-2 cm to prevent any gaps between
the window frame and the box)

Installation on the facade:

Sz = So + P

Flush-mounted:

Sz = window width**

NOTE

IN THE CASE OF INSTALLATION OF THE VERSION WITH A CORNER GUIDE, "X" DISTANCE, BY WHICH THE CORNER CONNECTOR PROTRUDES FROM THE WINDOW FRAME, SHALL BE ADDITIONALLY PROVIDED.

IF SEVERAL EXTERNAL BLIND SETS ARE ORDERED, THE FOLLOWING RULE OF FILLING IN ORDERS SHALL BE OBSERVED: FIRST FILL IN THE INFORMATION ON LEFT SIDE BLINDS AND THEN IN ORDER FROM LEFT TO RIGHT WHEN LOOKING FROM INSIDE THE ROOM.

* - A reference drawing shows one of the blinds package as a package with the main slat profile (protruding profile)

** - It is recommended to take into account the installation clearance for free processing of wood elements and proper installation of the guides.

PERGOLA PR6000

DIMENSIONING

Sp - width of the pergola

Wp - pergola outreach

Hp - height of the pergola

Wr - gutter height:

PR6000-HT = 220 mm

PR6000 LITE = 170 mm

Maximum area	16 m ²
Minimum width *	560 mm
Minimum height	600 mm
Maximum width	4000 mm
Maximum height	5000 mm

STANDARD EQUIPMENT

Wall handles	F-US-120
Top rail handles	F-USG
Cord guide	F-PL
Cord guide lower handles	F-UDPL-80
Slat rotation	90°/180°

EXTRA CHARGE

SYMBOL	NAME	PRICE
F-US-100-150	Adjustable wall handle 100-150 mm	5,40 €
F-US-150-200	Adjustable wall handle 150-200 mm	6,20 €
F-US-200-250	Adjustable wall handle 200-250 mm	7,10 €

The heights of packages concern the 180° rotation.

If TP1000K-ZF box is lowered, the total height of the product does not increase.

The heights of packages concern the 180° rotation.

If TP1000K-ZF box is lowered, the total height of the product does not increase.

The heights of packages concern the 180° rotation.

If TP1000K-ZF box is lowered, the total height of the product does not increase.

NOTES, SKETCHES (VIEW FROM THE INSIDE)

Please read the explanations before completing the form.

NOTE: The following rule of filling in orders shall be observed: first fill in the information on left side blinds and then in order from left to right when looking from inside the room. Individual changes in the content of the order form can lead to the incorrect completion of the order. Complaints of this type shall not be considered.

I hereby declare that I transfer personal data of a natural person to you for the purpose of the contract execution under the consent for processing of personal data disclosed in compliance with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016.

ORDER FOR TOP MOUNTED ROLLER SHUTTERS : installed to a window profile **TP1000K® Adjustable profile:**

The order concerns CC1000® shutters. When ordering TL1000®, TP1000K®, TP1000K® shutters with a mosquito net, relevant fields in the order form should be marked with an "X" sign

Wysłanie druku zamówień jest jednoznaczne z zaakceptowaniem Ogólnych Warunków Sprzedaży i Dostaw PORTOS TR7 dostępnych w Cenniku Rolet lub pod adresem https://portosrolety.pl/download/ogolnewarunki_pl.pdf

HOW TO FILL IN AN ORDER FOR PORTOS TOP MOUNTED ROLLER SHUTTERS - CC1000, TL1000, TP1000K WITH A MOSQUITO NET

1. Please provide the type of a window profile to select proper adjustment options - if you fail to specify the window profile, we will deliver a UNIVERSAL adapter. In case of the TP1000K system, please mark a relevant adjustable profile with an "X" sign. If none of the options is marked, the NPS-010 adjustable profile is deemed to be ordered.
2. Provide the number and date of order filing and the requested date of delivery.
3. If the delivery address is different than the company address, fill in such other address.
4. The order concerns the CC1000 shutters, when ordering the TL1000, TP1000K, TP1000K shutters with a MOSQUITO NET, please mark a relevant field in the order form with an "X" sign

1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27		
Shutter size [cm] with the box and guide rails			width of the mosquito net only for TP1000K (division)	box size (mm)	box elevation only for TP1000K-ZF	box lowering only for TP1000K-ZF	box depth increase only for TP1000K	tapes outlet: A, B or C marked on the shutter only for TP1000K-ZF (Fig. 1. 3)	types of guide rails (P/C/ALU, single double) -ALU only for TP1000K (Fig. 1. 3)	cutting angle of PVC guide rails from 0 to 45° does not apply to TP1000K-ZF	location of the revision (inspection) A or B only for TP1000K (Fig. 2)	Box colour		colour of the guide rails	type of the shutter profile / slats	colour of the shutter profiles/slats as per the colour chart	colour of the bottom slat		MOSQUITO NET		DRIVE				OPERATION (looking from the inside)	Colour of the plastering strip (TL1000, TP1000K)		Notes: e.g. colour of the winder, tape, additional elements: bolts, switches, remote controls, end caps
width	height	internal										external	colour of the net				colour of the slat	tape	crank winder	crank with a coupling (Cardan shaft)	spring + lock + handles	motor	L	R		external	internal	

1. Width of the installed shutters (total width) with guide rails is specified in centimetres
2. Height of the installed shutters (total height with the box) is specified in centimetres, in the TP1000K-ZF system, the height is specified with the box expansion (method of measuring the blinds - page 3.19)
3. Specify the width and distribution of mosquito nets - applies to the TP1000K system with the shutter curtain profiles - one whole or divided mosquito nets. The dimensions shall be specified via measuring the distance from the external edge to the divider rail axis and/or between the axes of divider rails. Height of the mosquito net equals the height of the shutters.
4. Height of the box in millimetres, selected as per the table with winders. The box can be expanded for a surcharge of 5% of the net price of the shutters, if the box size is not specified, standard size as per the table with winders will be assumed. If the TP1000K-ZF system is ordered with the 280 box (actual dimension 281 mm), then the box is in fact the 250 box with the 31 mm expansion.
5. box elevation (expansion) (only the TP1000K-ZF shutters in boxes) - please mark with an 'X' sign. Box elevation increases the height of the box by 3 cm.
6. box lowering (only the TP1000K-ZF shutters in boxes) - please mark with an 'X' sign. Box lowering decreases the height of the box
7. specify the box depth increase - +31 mm or +62 mm (concerns only TP1000K)
8. tape outlet, enter A, B or C (concerns only TP1000K see Fig. 1, table of orders) and Cardan shaft outlet enter A, B (concerns only TP1000K see Fig. 3). In the TP1000K-ZF system, the only available Cardan shaft outlet option is B
9. specify the shutter curtain profile guide rails type - enter SIN (single), DOU (double) or SDB (single+double). In the TP1000K-ZF system, aluminium guide rails can be used. If you want aluminium guide rails, then fill in as follows ALU-SIN (aluminium, single), ALU-DOU (aluminium, double) or ALU-SDB (aluminium single+double)
10. enter the angle of the PVC guide rail cutting from 0 - 45°
11. manner of the revision (inspection) cover opening, enter A or B (concerns only TP1000K see Fig. 2 order table)
12. colours (boxes): int - internal, ext - external,

Available colours: white - 02, lining (colours of lining - cover). CC1000 - if a white box 02 is ordered and lined guide rails, the external side of the shutters will be smooth and white. Assuming the colours as above, and additionally with the option of the plastering strip, the external side of the blinds will be grooved, and will be provided at the bottom with a 1.5 cm strip of the same colour as the guide rails (135 mm box will make an exception - the external side will be smooth and provided at the bottom with a 1.5 cm strip with lining).

TL1000, TP1000K - if a white box 02 is ordered and lined guide rails or revision (inspection) cover, external or internal side of the blinds will be provided at the bottom with a 1.5 cm strip with lining of the same colour. This type of lining can be used in the TL1000 system only for grooved sides. TL1000K offers more options, here this type of lining can be used for smooth and grooved sides.

13. colour of the revision (inspection) cover (concerns only TL1000). Available colours: white - 02, lining - please refer to the cover

14. colours (guide rails): white - 02, lined (colours of lining - please refer to the cover)

15. enter the selected profile: PA - 39 (aluminium profile), PA - 45 (aluminium profile), PA - 52 (aluminium profile) (PA - 52 and PVC - 52 are only available in the TP1000K system - see tables with winders)

16. colour designation of PA - 39, PA - 45 profile (as per the colour chart on the last page, cover) (if the profile is to be free of any perforations, instead of the 'X' sign, enter 1, e.g. 02 - white perforated,

102 - white, with no perforations)

Note! - profile with no perforations is typically used in case of coil spring lifting mechanism

17. colour of the bottom slat:

- 01 - silver, 02 - white, 03 - grey, 05 - beige, 08 - dark brown, 09 - brown, 16 - ivory, 23 - anthracite grey (standard, with no additional fees),

- other varnish colours similar to the colour of the shutter curtain profile shall be specified using the profile colour symbol (apart from colours 22, 30, 48, 54) also non-standard colours as per RAL colour table,

- bottom slat can also be lined (see the list of lining colours - cover),

18. net colours (concerns the mosquito net) - 03 - grey and 20 - black,

19. colour of the bottom slat (concerns the mosquito net) - 01 - silver, 02 - white, 03 - grey, 05 - beige, 08 - dark brown, 09 - brown, 16 - ivory, 23 - anthracite grey (standard, with no additional fees)

20. selection of the motor drive (mark with an 'X' sign in the column of the motor drive selected):

tape winder mechanism (no extra fee) - available in white, brown, anthracite grey - if the winder colour is not specified, then white will be assumed as a standard, with a grey tape. In case of shutters with a box with double-sided lining, and in case of the TL1000 shutters with lined revision (inspection) cover, the tape and the winder are brown as a standard,

21. box with the tape crank gear - available in white and brown, if the box colour is not specified, then white will be assumed as a standard, with a grey tape. In case of shutters with a box with double-sided lining, and in case of the TL1000 shutters with lined revision (inspection) cover, the tape crank gear and the tape are brown as a standard,

22. A Cardan gear mechanism 90 0 - crank extension - see Fig. 3,

23. coil spring lifting mechanism and espagnolet lock in the bottom slat,

24. electric drive (if the motor is not specified - cable PORTOS motor will be assumed, in the TP1000K-ZF system - ELERO SOFT motor),

25. side of the tape winder location (box, crank and switch) looking from the inside,

26. in the TL1000 and TP1000K systems, the side where the plastering strip is to be fixed shall be selected - ext. /int. Please, mark the colour: 02 - white, 08 -dark brown, 09 - brown, 23 - anthracite grey. In case of the TP1000K-ZF system, the following colours are available: DB 703 - metallic grey, 7016 - anthracite grey, 7021 - dark grey, 7035 - light grey, 9005 - black, 9006 - white aluminium, 9007 - grey aluminium, 9016 - white, VSR 240 - beige, VSR 780 - olive.

In the CC1000 system, the plastering strip is installed only on the external side. If the client has selected the plastering strip, the box will come with frontal reinforcement. In the TP1000K system, frontal box reinforcement is installed only on the external side.

27. Notes to respective items, e.g. colour of the winder and the tape, additional fit-out, e.g. bolts, etc. Drawings of sets and sketches (all from the inside). Notes can be also made under the table.

- 1. Fill in the quantity of pergolas.
- 2. Width of the completely assembled pergola (total width) in centimetres, in compliance with the measuring method on page 11 of the catalogue. For the PR6000 LITE pergola, select one of the available dimensions.
- 3. Outreach of the completely assembled pergola (total outreach) in centimetres, in compliance with the measuring method on page 11 of the catalogue. For the PR6000 LITE pergola, select one of the available dimensions.
- 4. Height of the completely assembled pergola (total height with the side profile (main gutter) in centimetres, in compliance with the measuring method on page 11 of the catalogue.
- 5. Specify type of the assembly: WS - standalone, PR-WY - wall-mounted, with outreach facing the wall, PR-SZ - wall-mounted, assembled alongside its width (Fig. 1). Applies only to the PR6000 HT.
- 6. Colour of the pergola gutter: available colours - white RAL9016, anthracite grey - RAL7016, black grey - RAL7021.
- 7. Mark with an 'X' sign if you want your pergola to have a height extending profile (the profile will increase the height of the pergola by 12 cm and will come in the main gutter colour). Applies only to the PR6000 HT.
- 8. Colour of the pergola columns: available colours - white RAL9016, anthracite grey - RAL7016, black grey - RAL7021.
- 9. Colour of the pergola roof slats: available colours - white RAL9016, anthracite grey - RAL7016, black grey - RAL7021.
- 10. Mark with an 'X' sign if you want your pergola main gutter to have a masking profile (in the main gutter colour). Applies only to the PR6000 HT.
- 11. Mark with an 'X' sign if you want your pergola main gutter to have a LED lighting profile (in the main gutter colour).
- 12. Indicate where the drainage system openings are to be made in the gutter. It is recommended to locate such openings opposite the motor.
Indicate two locations as shown in Figure 3 - A, B, C or D.
- 13. Mark with an 'X' sign if you want rainwater drainage system openings to be made in the columns (Fig.3).
- 14. Specify type of a bottom connector of the column A - hidden, B - with a gantry plate (Fig. 4). Applies only to the PR6000 HT.
- 15. Mark the side where the motor control panel is to be installed in compliance with Figure 2 - A, B, C or D. The side of the panel installation predetermines the direction of slat opening. Applies only to the PR6000 HT. In the PR6000 LITE pergola, the motor is mounted in the middle of the gutter.
- 16. Additional notes to respective items. Drawings and sketches (all from the inside).

NOTES, SKETCHES (VIEW FROM THE INSIDE)

Before filling in the form, please read the instructions.

NOTE: Changing printed contents of the form may result in errors in order fulfilment. Complaints resulting therefrom will be dismissed.

I represent that I provide - to you - personal data of a natural person for the purpose of order fulfilment on the basis of my consent for processing of personal data disclosed in accordance with the Regulation of the EU Parliament and Council (EU) 2016/679 of 27 April 2016.

By filing this order form, you accept the General terms and conditions of sales and deliveries of PORTOS TR7 included in the Roller Shutter/External Blinds Price list or on the website https://portosrolety.pl/download/ogolnewarunki_pl.pdf

HOW TO FILL IN AN ORDER FOR PLEATED MOSQUITO NETS

- 1. Enter number and date of placing the order and the desired date of the order completion.
- 2. Please, enter the delivery address, if different than the company address.

No.	Quantity	Mosquito net size		Mosquito net type (POJ - single, PD - double)	Colour of the profile	Type of installation			Notes:
		Width (cm)	Height (cm)			In guides	Independent	Independent in the niche	
	1	2	3	4	5	6			7

- 1. Enter the right quantity of pleated mosquito nets.
- 2. Enter the width of the clear opening for the mosquito net frame.
- 3. Enter the height of the clear opening for the mosquito net frame.
- 4. Enter the mosquito net type: POJ - single, PD - double.
- 5. Enter the colour of the mosquito net profile. 01 - silver, 02 - white, 03 - grey, 05 - beige, 08 - dark brown, 09 - brown, 16 - ivory, 23 - anthracite grey.
- 6. Mark the selected type of the mosquito net with an "X".
- 7. Notes concerning all items.

An exemplary sketch of a set of two ZF3000 external blinds in one box with completed order forms.

In the Notes column,
check the items included
in the set.

Select the type of the inside guide (PPD-40) holder. Our example shows B type holder (71-105) filled in the form. This type of holder is also selected if the holder type has failed to be provided in the order form.

Please read the explanations before completing the form.

NOTE: Individual changes in the content of the order form can lead to the incorrect completion of the order. Complaints of this type shall not be considered.

I hereby declare that I transfer personal data of a natural person to you for the purpose of the contract execution under the consent for processing of personal data disclosed in compliance with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016.

NOTE: Individual changes in the content of the order form can lead to the incorrect completion of the order. Complaints of this type shall not be considered.

I hereby declare that I transfer personal data of a natural person to you for the purpose of the contract execution under the consent for processing of personal data disclosed in compliance with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016.

Standards and tolerance ranges

Portos external blinds are manufactured in accordance with the current European and national technological standards. All elements of the system are within the tolerances defined by internal technological standards. The maximum differences in the dimensions of the external blinds are 5 mm. Aligning may be visible on the surface of FBR guide rails and adapters.

Operation of the external blind sets

A natural phenomenon occurring during the operation of an external blind set are slight differences in the work between individual packages. Differences, such as: non-collinear position or non-synchronized movement of the slats may occur in the inter-connected blinds. These differences may intensify in wide and tall constructions. To prevent this from happening, leave a 5 mm expansion gap between the individual sheets during the installation of the entire system.

Slat position

While rolling external blinds, the cords may wind up between individual slats. As a consequence, the blind package may become unevenly rolled and the position of the slats may be non-collinear. This effect will intensify with increasing blind height. In such a case, just remove the cords gently from the space between the slats. Due to the natural behavior of the textiles, a one-sided deviation of the bottom lath in relation to the horizontal axis is allowed. In case of slats C80, the heights of packages are adapted to 180-degree rotation. However, in case of 90-degree rotation, the package may roll up in a non-linear fashion, therefore, the total height may be greater and, as a result, it may stick out of the sheet metal or box.

Motor configuration

At the production stage, the motor installed inside the system was pre-configured and programmed. After installing the entire package, the motor parameters and end positions should be adjusted to the current operating conditions. The use of a mounting cable will be necessary to set them.

Operation and maintenance

When using the external blind system, follow the manufacturer's recommendations and instructions. During proper use of external blinds, there should be no deformation of structural elements. It is recommended to use external blinds in the temperature range from -25°C to +45°C.

Note - The blinds should not be used when the bottom lath is iced.

Within the blind operating range, there should be no objects or persons that may disturb its operation.

When the blind is fully open, the bottom lath should be in the side guides.

Before using the external blinds, remove any dirt from the seals installed in the side guides.

An electro-mechanical drive or a manual drive (crank mechanism) can be used to open and close the external blinds.

Note - The continuous operation of the blind electric motor should not be longer than 4 minutes.

In compliance with these operating instructions, inspection and maintenance works must be carried out at least every 3 months. Basic maintenance operations consisting in removing sand and other impurities from the curtain and the inside of the guides as well as visual inspection of the general condition of the blind, completeness control and operational effectiveness of all structural elements should be carried out on an ongoing basis.

Note - Basic maintenance operations can be performed by the user with no special entitlements.

When conducting basic maintenance operations, the following rules must be observed:

1. Disconnect the power supply before starting the maintenance of the external blind.
2. Do not use sharp or rough tools to clean the blind.
3. Do not use any viscous preservatives, such as spray grease.
4. External blinds shall be cleaned with lukewarm water and mild neutral pH detergents, preferably at the temperatures not lower than +10°C. The use of pressure washers or detergents containing ammonia, chlorine and bleach of any kind is prohibited. Avoid detergents containing solvents or diluents, such as petrol, alcohol, acetone. It is also prohibited to use such detergents or solvents in areas near the external blinds. Non-observance of the aforementioned rules highly increases the risk of corrosion and damage of the slat coating.

NOTE - The use of strong detergents and corrosive substances may damage or discolor the finish coating.

The manufacturer is not responsible for any damage caused by: improper use, negative effects of weather conditions, intentional damage and natural wear of the products. Wear and tear of the paint coating of the shutter curtain, in the form of scratches around areas in direct contact with components of external blinds, shall be deemed as usual wear and tear.

GENERAL CONDITIONS OF SALE AND DELIVERY FOR PRODUCTS OF PORTOS TR7

I. I. The terms used in these Regulations have the following meanings:

Seller / PORTOS - PORTOS TR 7 Spółka z ograniczoną odpowiedzialnością based in Kalisz, address: ul. Złota 71, 62-800 Kalisz, entered into the Register of Entrepreneurs of the National Court Register by the District Court Poznań - Nowe Miasto and Wilda in Poznań under KRS number 0001055147, NIP 6180018618, REGON 250410218;

Buyer - a legal person or a natural person conducting business activity and ordering goods included in the Seller's commercial offer directly related to their business and professional activity, for further distribution;

Parties - the Seller and the Buyer jointly;

Product / Goods - products included in the Seller's commercial offer.

II. PRICE

1. The Prices are net prices (they do not include VAT). The Buyer reduces the Prices indicated in the price list by the individual discount granted to him.
2. The given Prices are unit prices of goods with specified dimensions, expressed in units, running meters, pairs or sets.
3. The Price includes the cost of transporting the Products to the Buyer's registered office/ sales point, unless otherwise agreed by the Parties.
4. PORTOS may unilaterally change the price in the case of ordering at least 50 roller shutters or at least 20 roller shutters of the same size.

III. PAYMENT AND DELIVERY

1. The place and date of delivery shall be specified by the Buyer in the order content.
2. The time of order completion in colors and with equipment specified as standard lasts 21 working days from the date of receipt of a written order by the Seller. Earlier or later date of delivery of standard products and the date of completion of non-standard products shall be agreed individually by the Parties. In special cases beyond the control of the Seller, the order completion date may be extended.
3. Orders should be submitted in writing, by fax or e-mail only on the original PORTOS order forms.
4. Placing an order is tantamount to accepting it for implementation, however, the Seller reserves the right to suspend the order execution in the event of exceeding the value of the trade credit granted or delay in payment of any receivables until the due amounts or prepayments are settled.
5. The cancellation or change of the order by the Buyer may be accepted by the Seller without any consequences only if the order has not been made (manufactured) yet. If the Buyer cancels an order already made, he is obliged to pay the full price due.
6. At the request of the Buyer, the Seller may repurchase the previously sold automation components, provided that the returned goods do not show traces of use, are not damaged, are packed in original packaging and no more than 3 months have passed from the date of release.
7. Detailed terms of cooperation, in particular discounts and payment terms, may be specified in the "Terms of cooperation" delivered in writing to the Buyer.
8. The "Terms of cooperation" may be changed only if delivered to the Buyer in writing.
9. The day of making the payment is considered to be the date on which the Seller received cash, and in the case of a transfer, the date of crediting the Seller's account.
10. The Seller may change the terms and conditions of cooperation with immediate effect without notifying the Buyer, if the Buyer:
 - a) makes late payments for the delivered goods,
 - b) grossly violates the terms of cooperation,
 - c) has filed an unfounded complaint at least twice.
11. The Buyer undertakes to collect the ordered goods at the agreed time and carry out unloading at the place of delivery.
12. Risks of damage or loss of Goods shall pass to the Buyer upon starting the unloading.
13. The Buyer may collect the Goods with his own transport during the working hours of the Seller's warehouses and after prior appointment. In the event of collecting by a person other than the owner of the company or a person authorized to represent the Buyer in accordance with the entry in the relevant register of entrepreneurs, a written authorization for collection issued by a person authorized to represent the Buyer is required.
14. At the request of the Buyer, the Seller may send the Goods using forwarding or courier services. In this case, the shipping costs are borne by the Buyer, and upon the release of the Goods, the risk of its loss or damage passes to the Buyer.
15. Handing over of goods to the Buyer is always carried out on the basis of a delivery note (WZ). Signing the document by both Parties without any objections means that the Goods have been handed over in quantity included in the delivery note and have no apparent defects.
16. If the Buyer fails to collect the goods on the previously agreed and confirmed date, the Buyer shall pay to the Seller a contractual penalty in the amount of 1% (one percent) of the gross value of the uncollected order for each day of storing the goods uncollected by the Buyer. Re-delivery to the Buyer's registered office/ sales point shall be made upon payment of the contractual penalty referred to in the preceding sentence and payment of the entire price for the uncollected delivery. The Seller may demand from the Buyer a complementary compensation if the contractual penalty does not cover the damage suffered by the Seller.
17. After one month has passed from the day on which the Buyer was obliged to collect the goods, the Seller may withdraw from the contract within a further period of two months, without prejudice to the Buyer's obligation to pay the contractual penalty for failure to collect the goods on time.

IV. COMPLAINTS OF APPARENT AND QUANTITATIVE DEFECTS

1. A complaint procedure is processed as defined in the Product Warranty Certificate. In case of any discrepancies between these Sales Terms and Conditions and the content of the Product Warranty Certificate, the provisions of Warranty Certificate shall prevail.
2. It is the duty of the Buyer to check the quantity of delivered Products at the time of delivery. Any discrepancies shall be immediately reported to the driver or the warehouse worker and recorded in the Stock Issue Confirmation or otherwise the Buyer shall lose its right to raise any claims thereunder.
3. Any missing quantities of Goods shall be immediately delivered by the Seller and the Buyer shall be obliged to pay for the actually delivered goods within the agreed deadline.
4. Apparent defects such as: mechanical damage, deep scratches, cracks and broken items shall be reported at the time of delivery and recorded in the Stock Issue Confirmation or otherwise the Buyer shall lose its right to raise any claims thereunder. Complaints concerning scratched, dented, bent or damaged elements shall not be considered if the roller shutter has been installed.
5. Any Product with apparent defects, which has been returned to the Seller, shall be immediately repaired or replaced by the Seller.
6. The Buyer shall be obliged to pay for the delivered Goods in the part that is not complained about.
7. The Buyer acknowledges that the Seller has disclaimed its liability under the warranty for the Products sold, moreover, the Buyer fully understands the effects of such a disclaimer, accepts it and consents thereto before placing the order.
8. Minor defects, that are invisible after the installation, such as: scratches on the aluminum box adjacent to the wall, shall not be subject to complaints and are excluded from the warranty.
9. Orders placed in a form other than an original order form of the Seller shall not be subject to complaints.

V. WARRANTY

1. The Seller hereby grants the Warranty for the purchased Products on terms and conditions specified in the Product Warranty Certificate. In case of any discrepancies between these Sales Terms and Conditions and the content of the Product Warranty Certificate, the provisions of Warranty Certificate shall prevail.
2. Any defects that cannot be identified at the time of delivery shall be reported by the Buyer in writing, forthwith after finding such defects, but not later than 14 days after the delivery of goods or otherwise the Buyer shall lose its rights under the warranty.
3. The Buyer's rights under the Warranty arise once the delivered Products are fully paid for.
4. The Guarantee excludes any products customized to the needs of the Buyer or tailor made pursuant to

the Client's order, which are not included in the product offering range of the Seller.

5. The Warranty excludes any effects of improper installation (connection) of the purchased Products, their improper use, regular wear and tear and the cases specified in the Warranty Certificate.
6. The Seller shall repair the Product or replace it with a Product free of defects within 30 days as of the date of filing the complaint, with the reservation that the time needed for the removal of more complex defects may be extended. The time for the removal of defects may also be extended should any subassemblies require to be replaced and the Manufacturer does not have them or should any adverse weather conditions occur in the place where the defect is to be removed, which prevent the implementation of any technological process necessary for the defect removal.
7. Differences in shades of components of the product of the same colours, in particular woodgrain colours, as well as differences caused by structural colour patterns. These discrepancies are dependent on the semi-finished products delivered by manufacturers at different intervals.
8. For wood-like coloured curtains some tonal difference, such as subtle streaks and stripes of lighter and darker tones might occur. This is a result of characteristics of the production process and imitation of wood structure. Differences of that type are not the ground for complaint.
9. Because of natural external factors, such as temperature and humidity and its own weight, the roller shutter curtain might distort and result in nonlinear layering. Prolonged lowered position of the curtain might result in distortion of brush seals located in the guide, which causes nonlinear layering. Distortion of this type does not influence technical characteristics and durability of the curtain and is not the ground for complaint.
10. The Buyer shall lose its rights under the Warranty if the Product has been damaged as a result of the Buyer's failure to observe recommendations included in the assembly manuals and in technical specifications for roller shutters, gates, roller security shutters and electrical equipment.
11. Services under the warranty are provided only for PORTOS products installed on the territory of Poland. In case of PORTOS products installed outside of the territory of Poland, the warranty services consist in sending relevant self-repair kits and it is the Buyer who performs all the necessary repairs at its own cost and risk.
12. In case of built-in elements of roller shutters or gates, such as guides or access doors, the Buyer, at its own expense, shall be obliged to provide the Seller's service technician with free access to the roller shutter or gate so that they could be repaired. In case of roller shutters installed at any level higher than the ground floor, the Buyer shall provide a scissor lift or scaffolding.
13. Should the warranty service technician be called without justified reasons, the Buyer shall bear the travel costs to the installation place of the product complained about and the costs of repair.

VI. DOCUMENTS REQUIRED FOR COOPERATION

1. In order to start commercial cooperation, the Buyer is obliged to submit the following documents to PORTOS:
 - Certificate of entry in the register of business activity or excerpt from the register of entrepreneurs of the National Court Register or other register of entrepreneurs kept by the state in which the Buyer has its registered office;
 - Certificate of assignment of the REGON number;
 - Decision on assigning a tax identification number (NIP);
 - Declaration of consent for issuing invoices without a signature (original) and a list of persons authorized to receive and sign VAT invoices - signed by a person authorized to represent the Buyer or a person authorized by him in writing.

VII. TERMS AND CONDITIONS OF THE PRODUCT COLLECTION FROM THE BUYER

1. Terms and conditions of the Product collection by the Seller, which are stipulated herein, shall apply to:
 - a) paid modifications of the Product, made in particular according to the Buyer's specifications, customised according to the Buyer's order or if the warranty does not apply, including after the expiry of the warranty;
 - b) free of charge modifications of the Product, made in particular within the warranty claim or due to a justified complaint;
 - c) any buy-back of the Product by PORTOS, on terms and conditions of these General Conditions of Sale and with the reservation of Goods specified in III (6) hereof.
2. Paid and free of charge modifications are in particular repairs or replacements of the Product, its parts or components. Costs of paid modifications may be waived or appropriately shared between the Seller and the Buyer, following a prior agreement between the Parties.
3. The provisions hereof and the Warranty Certificate that pertain to differences in colour, shades and shade differences within one and the same colour shall respectively apply to the replacement of the Product, its parts or components.
4. The Product is collected on dates indicated by the Seller, using the Seller's means of transport. The Parties agree that the Product may be personally delivered by the Buyer or sent via any carrier or courier mail service, with the reservation that all costs and risks related to the damage or loss of the Product during the delivery to the registered address of the Seller shall be borne by the Buyer.
5. In the case of paid modifications, the Seller shall charge an additional fee of PLN 100 net for the transport service each time. This fee shall be charged separately for the collection of the Product and for its re-delivery to the registered address or point of sale of the Buyer, if the Seller's transport is individually organised exclusively for the Buyer's Products.
6. The Buyer undertakes to hand over the Product to the Seller against a hand-over and acceptance certificate, which shall include:
 - a) designation of the type of the Product;
 - b) quantity;
 - c) description of the technical condition and
 - d) specification of any found defects (if any)- or otherwise, the Seller shall refuse to collect the Product.
7. If the Product is collected due to a warranty claim, a justified complaint, or a buy-back, the Buyer - in addition to the obligation specified in the preceding section - shall be required to prior submit a written notice to the Complaint Department.
8. Notwithstanding the foregoing section, the Seller shall collect the Product from the Buyer without any prior notice submitted to the Complaint Department if the Buyer appends the complaint form to the Product, with the reservation that this shall exclusively concern the Product collection within the framework of the warranty claim or a justified complaint.
9. The complaint shall be submitted on the complaint form available for download from portosrolety.pl

VIII. OTHER PROVISIONS

1. At the Buyer's request, the Seller may organize a training on the installation, service and repairs of the offered products.
2. The Seller undertakes to provide the Buyer with a catalog of finished products and advertising brochures free of charge.
3. At the request of the Buyer, the Seller may make a roller shutter for advertising and exhibition purposes, including a partial refund of the exhibition in the form of an individually agreed discount.
4. The Seller reserves the right to make technical and design changes in the presented catalog offer without prior notification to the Buyer.
5. These General Terms of Sale and Delivery are the only contractual regulation binding on the parties for the sale of goods.
6. The Buyer accepts the above terms of sale and delivery by placing the relevant signature at the time of placing the order.
7. In matters not covered by the above provisions, the relevant provisions of the Civil Code shall apply.
8. All disputes arising from the implementation of the above provisions shall be settled by the common court competent for the Seller's registered office.
9. All photos and drawings contained in the catalog are for reference only.
10. Detailed installation instructions for roller shutters and Products are included on the website www.portosrolety.pl.
